FIRE TOASTED CASHews

Traditional. Crunchy. Irresistibly rich.

Lightly toasted, intensely flavorful.

From tradition, in every bite.

Our cashews are not just roasted, they are fire-toasted, the traditional way, giving each kernel a unique amber blush, a whisper of char, and an unforgettable crunch. The slight toasting marks you see are nature's signature. They tell a story of hands, heat, and heritage that big buyers can proudly present to discerning customers.

Ideal for:

- Upscale grocery shelves
- Gift tins or festive packs
- Bulk wholesale cartons
- Specialty snack displays

Retail-ready traits:

dramatic black-and-gold presentation, premium flavor, and authentic storytelling.

Fathima Exports • Marjan Internationals
